

"HIGHLY
RECOMMENDED"

"The advice given by the OT was more than satisfactory. She gave me short and long term advice and options that worked!"

R. D. Thurston

"I was very pleased with the service, which was very helpful and professional."

L. W. Soham

" I wish I had contacted them sooner.

I would definitely recommend this excellent service. "

S. T. Ely

"It was most reassuring to speak to an OT with in depth knowledge of the problem with my hand. I am sure I will gain enormous benefit from her advice and encouragement."

WE are a team of experienced Occupational Therapists registered with the Health Professional Council and managed by Barbara di Vita, who has over 20 years clinical OT experience.

Our skills and experience lies in working with people who have been affected by an injury, illness or the ageing process. This may have reflected on their everyday abilities and confidence.

WHEN YOU MIGHT NEED US:

- If your needs change as you get older, we can offer advice and equipment to make sure you can cope with everyday life and can manage all the activities of daily living safely and confidently.
- When suffering from a debilitating illness such as Parkinson's or MS and you want to maintain your independence.
- If you have suffered from a stroke or injury which is affecting your ability in individual areas of function.
- On discharge from hospital when you want to regain your skills and confidence in everyday tasks.
- If you have difficulty using your hands through illness or injury, we offer specialist hand therapy in your own home.
- If you want advice to adapt your home, we can produce designs and liaise with surveyors and builders to make sure the design fits your needs.
- We have the specialist equipment for you to try before you decide to buy.

OUR PHILOSOPHY IS TO WORK WITH YOU IN YOUR OWN HOME AND OUR PRIORITY IS TO ENSURE YOUR NEEDS, WISHES AND BELIEFS ARE RESPECTED AT ALL TIMES.
